

Floor space requirements

Cycla Monarch Series - 90° floor plan

Scale 1:50

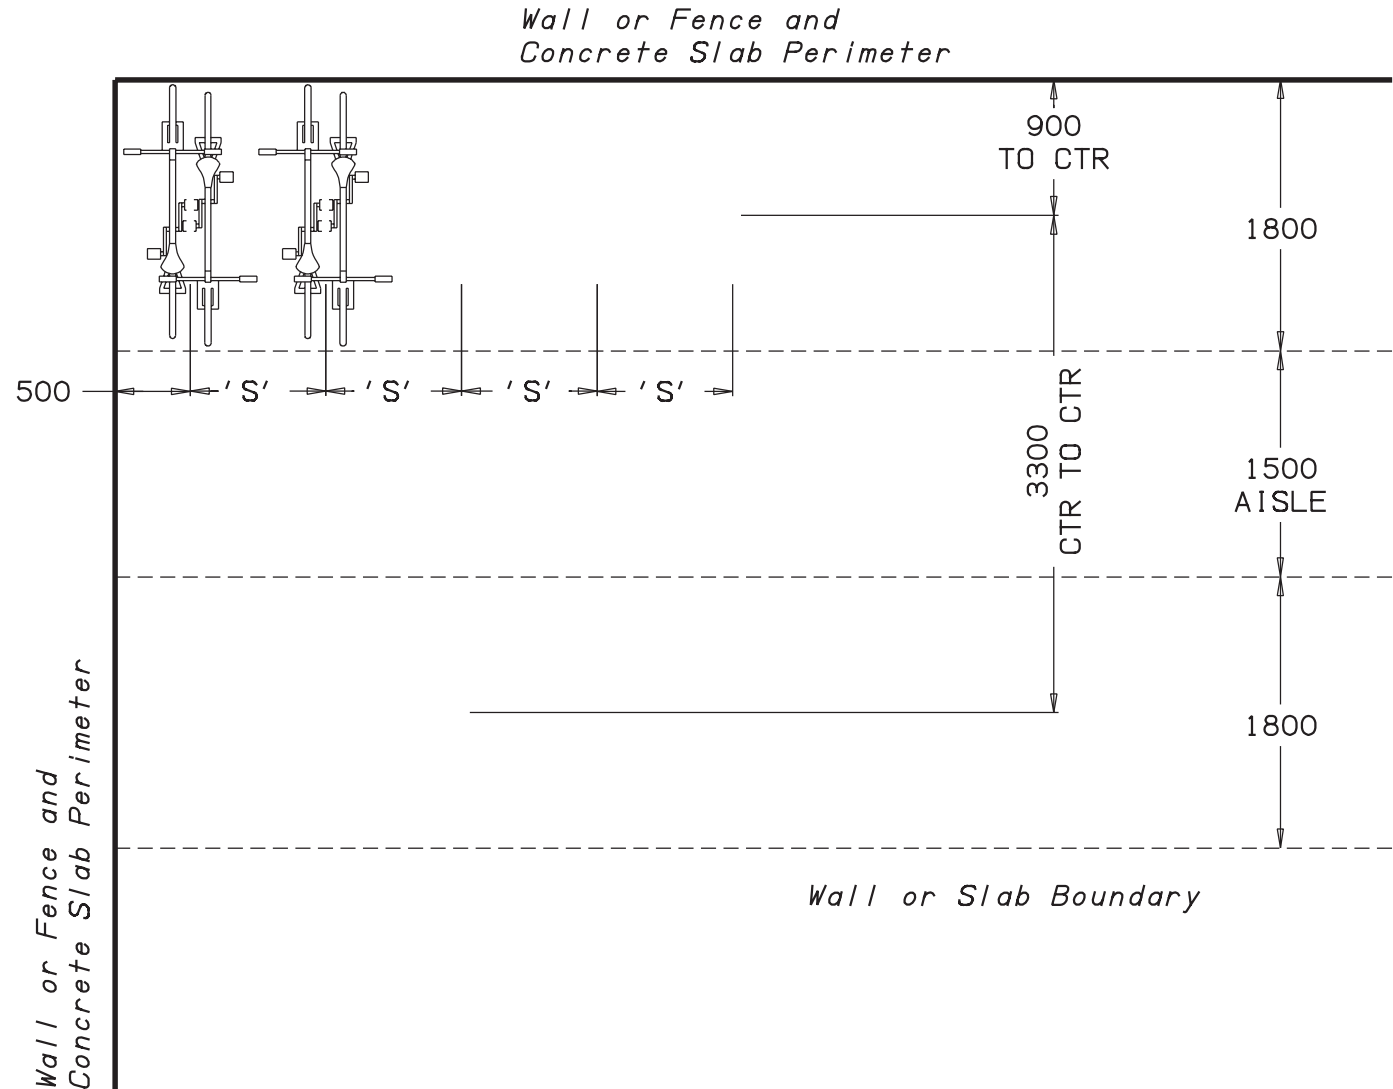

Drawing shows medium density layout

Storage Area Density options:

- 1) A.S. DENSITY 'S' : 1000mm CTRS
- 2) MEDIUM DENSITY 'S' : 900mm CTRS
- 3) HIGH DENSITY 'S' : 800mm CTRS

Notes:

- 1) A.S. Density is to Australian Standard's Requirements.
- 2) Medium Density recommended for most practical ease of use and to utilise space more efficiently, but not to Australian Standard
- 3) High Density are minimum dimensions suggested for practical ease of use, utilising space most efficiently, but not to Australian Standard.
- 4) A.S. is Australian Std 2890.3-2015

Floor space requirements

Cycla Monarch Series - 45° floor plan

Scale 1:50

Drawing shows medium density option at 45°

Storage Area Density options:

- 1) A.S. DENSITY 'S' : 1000mm
- 2) MEDIUM DENSITY 'S' : 900mm
- 3) HIGH DENSITY 'S' : 800mm

Notes:

- 1) A.S. Density is to Australian Standard's 2015 requirements.
- 2) Medium Density recommended for practical ease of use and to utilise space more efficiently, but not to Australian Standard
- 3) High Density are minimum dimensions suggested for practical ease of use and minimum space requirements, but not to Australian standard requirements
- 4) A.S. is Australian Std 2890.3-2015
